TUSCALOOSA PEDIATRICS

4880 HARKEY LANE, TUSCALOOSA, AL 35406

PHONE: 205-333-8222

FAX: 205-333-8233

Dear Parents,

In an effort to provide continuity for our patients, we are asking you to circle your first and second choice of physician when completing our demographic forms. We will make every attempt to make sure your child is scheduled with one of these physicians for all of his or her check-ups. We will ideally try to keep you with the same physician each time but in the event that particular physician is not available, we will try to put you with your second choice. If you desire to change and begin using a physician you did not originally schedule as a first or second choice, please let our front office know.

If you have a particular physician you would prefer for sick visits, it is best that you call and make an appointment with that physician. The walk-in clinic is staffed with different physicians each day. Patients are pulled back in order of arrival and then put with the next available physician. Therefore, we cannot guarantee you will see the physician of your choice when visiting the walk-in clinic. However, we are confident that any one of our physicians will provide good care to your child.

We are honored that you have chosen us to provide medical care for your child and hope this will help us to optimize that care.

Thank you,

Tuscaloosa Pediatrics, PC

Tuscaloosa Pediatrics Financial and Office Policies

**** PLEASE INITIAL ALL BELOW THAT YOU ACKNOWLEDGE AND AGREE ****

_____ Please be aware if you are a new patient and fail to show up for your 1st appointment without giving a 24 hour notice, you may be asked to find another medical office or physician for medical care.

_____ Please be aware our office does not accept all insurances. You may be asked to transfer out of the practice if you change to an insurance we do not accept, change to a plan we are no longer participating with, or our enrollment for your insurance is full at that time.

_____ All professional services rendered by Tuscaloosa Pediatrics, P.C. are charged to the patient. We will gladly file your insurance for you. However, the parent or guardian is responsible for all fees that are not covered by the insurance.

_____ Please be aware that our office is open most Federal Holidays, and if your child is seen, there is a Federal Holiday code (CPT 99051) that we do charge. This fee will be billed to your insurance provider, but may be applied to your copay, coinsurance, or annual deductible. If not covered by your insurance, you will incur an additional fee for this service.

_____ Payment is due at time services are rendered (such as co-pays, deductibles and non-covered services) regardless of who brings the patient in for his/her visit. There will be a \$15.00 administrative fee added to your account if your co-pay is not paid at the time of service. We accept cash, check, Visa, and MasterCard.

_____ We feel strongly about children having routine well check-ups. Per American Academy of Pediatrics, children should receive preventative health care at the ages listed below. We expect our parents to follow these guidelines so that we may continue to provide quality healthcare to our children. We understand there are some insurance policies that do not cover yearly check-ups, but do not feel this is a reason for your child not to have them. Failure to do so may result in being discharged from the practice.

- | | | |
|--------------------|--------------------|------------------------------|
| - 3-5 days of life | - 6 months of age | - 24 months of age |
| - 2 weeks of age | - 9 months of age | - 30 months of age |
| - 1 month of age | - 12 months of age | - 3-18 years of age - yearly |
| - 2 months of age | - 15 months of age | |
| - 4 months of age | - 18 months of age | |

_____ If your child is not current on routine check-ups, any refill on chronic medications and/or any routine immunizations may be denied until your child is current on routine check-ups.

_____ No well visits or immunizations will be given if you have an outstanding account balance.

_____ It is the patient's responsibility to know your insurance benefits and whether the physicians in this practice are preferred providers. Some insurance companies require referrals to specialists and urgent care facilities. It is your responsibility to notify our office within 48 hours if you are seeing or have seen another physician. Don't assume that referrals are done if you don't speak to someone in our insurance office, even if our physicians or nursing staff refer you.

_____ We will not give referrals to urgent care facilities or emergency rooms if you go during our regular business hours unless approved in advance, for a life-threatening emergency or we instruct you to go because we are unable to schedule an appointment here in a timely manner.

_____ Most insurance companies allow 30-45 days for you to add your newborn to your insurance policy. We require you to pay for the visit in full for the 2 month check-up if we cannot verify your baby's enrollment before the visit.

Tuscaloosa Pediatrics Financial and Office Policies

_____ We must have a release signed by a parent or guardian on file to release medical records. We request your account be paid in full in order to release your medical records if you are transferring your child/children to another physician. Accounts that are not paid in full or arrangements made to do so will be treated as a bad debt and will be forwarded to a collection agency.

_____ There is a fee and a 72 hour waiting period on all medical forms, blue cards not associated with a check-up and medical record copying. Please check with the office staff in advance on the cost for each request.

_____ There is a \$20.00 fee for after hours telephone calls. Please read and follow our Telephone Policy to avoid unnecessary costs.

_____ If you do not cancel your appointment 24 hours prior to the scheduled appointment time, you will be charged a No Show/Failure to Cancel fee. Any office visit that is scheduled with a Physician will incur a \$50.00 No Show/Failure to Cancel fee. Any visit scheduled with a nurse will incur a \$10.00 No Show/Failure to Cancel fee. Repeat offences could result in being discharged from the practice.

_____ If you have not arrived to your appointment within 15minutes of your scheduled appointment time, we will assume you are not coming. In such case, you will be charged the missed appointment fee.

_____ There is a \$25.00 fee on all returned checks.

_____ Please review our OFFICE FEES for additional forms and service fees.

Agreement to Accept Financial Responsibility, Insurance Authorization and Assignment of Benefits

I acknowledge that, at my request, Tuscaloosa Pediatrics, P.C. has provided my dependent with professional services and I agree to the above financial policy. I also understand that if I fail to comply with this agreement, and if my account becomes more than 90 days past due, it may be turned over to a collection agency, an attorney or small claims court for collection. I understand the collection agency charges Tuscaloosa Pediatrics a 33 1/3% fee in an effort to collect outstanding balances. This fee will be added to my bill and become my responsibility.

I hereby authorize Drs. Brown, Cunningham, Dean, McGiffert, Parchman, Vaughn and CRNPs, Kaila Sullivan and Paige Fancher to furnish medical information to my insurance carriers for payment of claims. I hereby assign to the physicians all payments for the medical services rendered to myself or my dependents. I understand that I am responsible for any amount not covered by insurance.

Communications Regarding My Account

Until my account is finally settled, I give my direct consent to receive communications regarding my account from any servicers and any collectors of my account, through various means such as 1) any cell or text number that I provide, 2) any email address that I provide, 3) auto dialer systems, 4) voicemail messages, and other forms of communications.

Tuscaloosa Pediatrics Vaccine Policy

We firmly believe in the effectiveness of vaccines to prevent serious illness and to save lives.

We firmly believe in the safety of the vaccines we provide.

We firmly believe that all children and adolescents should receive all of the recommended vaccines according to the schedule published by the American Academy of Pediatrics.

We firmly believe, based on all the available literature, evidence, and current studies, that vaccines do not cause autism or other developmental disabilities. We firmly believe that thimerosal, a preservative that has been in vaccines for decades and remains in only a very few vaccines now, does not cause autism or other developmental disabilities.

We firmly believe that vaccinating children and adolescents may be the most important health-promoting intervention we provide to your child as their pediatrician. The recommended vaccines and the schedule by which they are given are the results of years and years of scientific study and data gathered on millions of children around the world by thousands of our brightest scientists and physicians.

This being said, we recognize that there has always been and will likely continue to be controversy surrounding vaccination. The vaccine campaign is truly a victim of its own success. It is precisely because vaccines are so effective at preventing illness that many people do not understand the severity of the illnesses we are trying to prevent. Because of vaccines, many people have never seen a child with polio, tetanus, whooping cough, bacterial meningitis, or even chickenpox. Less than a century ago these illnesses were commonplace and they caused the majority of early infant and childhood deaths. The success of vaccines has led our generation to complacency about vaccinating which can have tragic results.

Over the past two decades, many people in Europe chose not to vaccinate their children with the MMR vaccine due to a fraudulent study suggesting a link between the MMR vaccine and Autism Spectrum Disorder. This resulted in multiple outbreaks of measles in Europe. The results of this study have since been proven false multiple times by numerous follow-up studies. But these outbreaks still occur and they are not without complications including permanent neurologic deficits and several deaths. There is a fatal, progressive disorder called Subacute Sclerosing Panencephalitis that only occurs 7-10 years after a natural measles infection so consequences may be still to come from these outbreaks.

While Europe and these disease outbreaks may seem a long distance from us in the United States, they are really only a plane ride away. We have had our own outbreaks of measles, mumps, Hemophilus Influenza B meningitis, meningococcal meningitis, and whooping cough in the U.S. in the past few years. These cases have mainly occurred in unvaccinated babies, children, and even adults.

We are making sure you are aware of these facts not to scare or coerce you, but to emphasize the importance of vaccinating your child. We recognize that the decision to vaccinate your child may be a very emotional one for some parents. Should you have doubts, please discuss them with us. Please be advised, however, that delaying or "breaking up the vaccines" to give one or two at a time goes against expert recommendations, and it can put your child at risk for serious illness or death. This goes against our medical advice as physicians at Tuscaloosa Pediatrics.

Should you absolutely refuse to vaccinate your child, you will be asked to find another health care provider who shares your views.

We appreciate the trust you have put in us to care for your children. Thank you for reading this policy. Should you have any questions we will be happy to discuss them during your office visit. We have several handouts available regarding vaccines and the diseases they prevent. We also have links to reliable vaccine information sites on our website www.tuscaloosapeds.com and we encourage you to look closely at those.

*Thank you,
The Physicians of Tuscaloosa Pediatrics*

I, _____, have read the above Tuscaloosa Pediatrics Vaccine Policy and I plan to vaccinate my child according to the recommended vaccination schedule from the American Academy of Pediatrics.

Sick Complaints at a Well Child Checkup

If you bring your child to a Well Child checkup and they are also sick or they have a new medical complaint, a worsening chronic medical problem, a medical condition where they are due for a recheck/medication refill, or if a new medical issue is discovered by your physician during the visit, most insurance plans require us to file a separate visit code for these types of problems when they are addressed at a Well Child Checkup. Because of this, your insurance may require you to pay a copay or deductible like you would at a separate visit just for that problem. We know there are some physicians out there that require a separate visit to cover any new problems but we know your time is valuable and we try to address all your issues in one visit whenever possible. In these cases, it may be necessary for you to pay a copay or deductible even if your insurance does not require a copay for Well Child Checkups.

WELL VISITS typically include: Tracking growth, checking vital signs, a full physical exam, evaluating developmental milestones and/or school performance, evaluating vision and hearing, evaluating diet and nutrition, evaluation of emotional well-being, medical risks based on family history, screening labwork when indicated, routine childhood immunizations, evaluation of stable chronic medical conditions, anticipatory guidance regarding common issues at your child's age, and filling out sports physical forms if needed

EXAMPLES of a few situations in which it may become necessary for us to file a separate sick visit code are below. We are unable to give examples of every situation that could arise that insurance would require additional codes of course.

A child who has been having headaches for the past 2 months.

A child with asthma who has been having to use their inhaler more frequently over the past few weeks and requires medication changes.

A child who has a fever at their Well Check Up and requires a flu test and a prescription for an antibiotic for their newly diagnosed ear infection.

A child who is found to have a foreign body in their ear on exam.

A child who is due for their ADHD or Anxiety medication visit at the same time as their checkup.

WHY DOES IT HAVE TO BE BILLED DIFFERENTLY? It is billed differently to account for the additional work, expertise, and time required for both the Well Check Up and the Sick visit (additional lab work, x-ray, referrals and/or prescription medications). For example, think about taking your vehicle in for an oil change (routine maintenance) and mentioning to the mechanic that your brakes are squeaking and your windshield wipers are not working well. In addition to the oil change, your car might require additional work on your brakes and replacement windshield wipers. Since additional services were provided, you would be charged for more than just the oil change.

If you have any questions regarding your child's bill, our insurance department is always glad to answer any questions. You may also need to talk directly to your insurance company to understand what your plan does and doesn't cover and when a copay or deductible is required.

Tuscaloosa Pediatrics

Policy for Divorced or Separated Parents

Our highest priority is the care of our patients. We have many patients whose parents are either separated or divorced and we are happy to work with either or both parents to make sure the child's healthcare needs are met.

When a child is seen in our office and accompanied by either parent, we will assume that parent has the authority to make medical decisions for the child, unless we are instructed otherwise by legal documentation.

It is essential that both parents reach an agreement regarding their child's healthcare needs prior to arriving at our office as we will not mediate disagreements. We will discuss our medical assessments and recommendations with the parent who accompanies the child to the office or contacts us by telephone or portal. However, we are happy to answer any questions regarding your child's health from either parent at any time.

Copays will be collected at the time of service by the accompanying parent or guardian, regardless of divorce decree. If the court agreement states otherwise, we will be happy to provide a receipt at the time of the visit for medical reimbursement to be settled privately between parents.

Yearly paperwork should be completed the same by each parent. Both parents need to discuss and agree on how demographics should be completed. This includes home and billing address and who should be listed on the HIPAA. Patient demographics will be updated based on the most recent update we have been given.

It is essential that parents communicate with each other regarding insurance policies. There are often times when a child has more than one insurance policy. In these situations, all policies must be made aware of each other. It is the parents' responsibility to make sure Coordination of Benefits (COB) is updated so that claims are processed and paid correctly. If we are made aware of a COB issue and it is not resolved, all insurance policies will be inactivated and patient will be considered self-pay until this issue is resolved.

Tuscaloosa Pediatrics providers and staff will not become involved in disputes between family members. Should a dispute interfere with your child's healthcare, or should an issue become disruptive to our practice, we will discharge the patient from further treatment.

| Congenital cataracts/retinoblastoma | <input type="checkbox"/> Yes | <input type="checkbox"/> No | <input type="checkbox"/> DK | Explain _____ |
| Metabolic/Genetic disorders | <input type="checkbox"/> Yes | <input type="checkbox"/> No | <input type="checkbox"/> DK | Explain _____ |
| Cancer | <input type="checkbox"/> Yes | <input type="checkbox"/> No | <input type="checkbox"/> DK | Explain _____ |
| Kidney disease or urologic malformations | <input type="checkbox"/> Yes | <input type="checkbox"/> No | <input type="checkbox"/> DK | Explain _____ |
| Bed-wetting (after 5 years old) | <input type="checkbox"/> Yes | <input type="checkbox"/> No | <input type="checkbox"/> DK | Explain _____ |
| Sleep problems; snoring | <input type="checkbox"/> Yes | <input type="checkbox"/> No | <input type="checkbox"/> DK | Explain _____ |
| Chronic or recurrent skin problems (eg, acne, eczema) | <input type="checkbox"/> Yes | <input type="checkbox"/> No | <input type="checkbox"/> DK | Explain _____ |
| Frequent headaches | <input type="checkbox"/> Yes | <input type="checkbox"/> No | <input type="checkbox"/> DK | Explain _____ |
| Convulsions or other neurologic problems | <input type="checkbox"/> Yes | <input type="checkbox"/> No | <input type="checkbox"/> DK | Explain _____ |
| Obesity | <input type="checkbox"/> Yes | <input type="checkbox"/> No | <input type="checkbox"/> DK | Explain _____ |
| Diabetes | <input type="checkbox"/> Yes | <input type="checkbox"/> No | <input type="checkbox"/> DK | Explain _____ |
| Thyroid or other endocrine problems | <input type="checkbox"/> Yes | <input type="checkbox"/> No | <input type="checkbox"/> DK | Explain _____ |
| High blood pressure | <input type="checkbox"/> Yes | <input type="checkbox"/> No | <input type="checkbox"/> DK | Explain _____ |
| History of serious injuries/fractures/concussions | <input type="checkbox"/> Yes | <input type="checkbox"/> No | <input type="checkbox"/> DK | Explain _____ |
| Use of alcohol or drugs | <input type="checkbox"/> Yes | <input type="checkbox"/> No | <input type="checkbox"/> DK | Explain _____ |
| Tobacco use | <input type="checkbox"/> Yes | <input type="checkbox"/> No | <input type="checkbox"/> DK | Explain _____ |
| ADHD/anxiety/mood problems/depression | <input type="checkbox"/> Yes | <input type="checkbox"/> No | <input type="checkbox"/> DK | Explain _____ |
| Developmental delay | <input type="checkbox"/> Yes | <input type="checkbox"/> No | <input type="checkbox"/> DK | Explain _____ |
| Dental decay | <input type="checkbox"/> Yes | <input type="checkbox"/> No | <input type="checkbox"/> DK | Explain _____ |
| History of family violence | <input type="checkbox"/> Yes | <input type="checkbox"/> No | <input type="checkbox"/> DK | Explain _____ |
| Sexually transmitted infections | <input type="checkbox"/> Yes | <input type="checkbox"/> No | <input type="checkbox"/> DK | Explain _____ |
| Pregnancy | <input type="checkbox"/> Yes | <input type="checkbox"/> No | <input type="checkbox"/> DK | Explain _____ |
| (For girls) Problems with her periods | <input type="checkbox"/> Yes | <input type="checkbox"/> No | <input type="checkbox"/> DK | Explain _____ |
| Has had first period <input type="checkbox"/> Yes <input type="checkbox"/> No | | | | Age of first period _____ |
| Any other significant problem _____ | | | | |

This American Academy of Pediatrics Initial History Questionnaire is consistent with *Bright Futures: Guidelines for Health Supervision of Infants, Children, and Adolescents*, 3rd Edition.

The recommendations in this publication do not indicate an exclusive course of treatment or serve as a standard of medical care. Variations, taking into account individual circumstances, may be appropriate.
